

INSIGHT 2019  
Berlin Sept 5<sup>TH</sup>–7<sup>TH</sup>

## Integrating science & practice of psychedelic states.

### CALL FOR PRESENTATIONS

We are pleased to invite submission for posters and oral presentations for the INSIGHT 2019 conference:

<https://insight-conference.eu/>

Research about the psychedelic state and its applications in medical and other professional contexts has entered a new phase. Dozens of international universities are involved in basic, clinical and public health research of classical psychedelics, novel substances and the contexts that facilitate positive, sustainable or negative outcomes.

The INSIGHT 2019 is a public transdisciplinary conference on the science and practice of psychedelic states: Join to participate in the discussion with international experts and young researchers from the fields of medicine, neuroscience, psychotherapy, philosophy, the social and political sciences, public health and policy making. Our goal is to create a responsible and evidence-based discourse about the complexity and usefulness of these states – both induced by pharmacological and non-pharmacological methods.

### ABSTRACT SUBMISSION

We are inviting contributions from researchers and students in the fields of neuroscience, neurology, psychiatry, psychology, philosophy and all other related behavioural and social sciences. Abstracts (300-500 words) should be submitted on the conference website until **May 31st**. Accepted presenters will be notified until **June 17th**. Accepted abstracts will be presented in poster format and some early career researchers will be selected to give an oral presentation. Submit your abstract here: <https://insight-conference.eu/call/>

### CONFIRMED KEYNOTE SPEAKERS

Prof. Dr. Thomas Metzinger (University of Mainz)  
Prof. Dr. Franz Vollenweider (University of Zurich)

Prof. Dr. Gerhad Gründer (Zentralinstitut für Seelische Gesundheit)

Prof. Dr. Kim Kuypers (Maastricht University)

Prof. Dr. Matthew Johnson (Johns Hopkins University)

Prof. Dr. Matthias Liechti (University Hospital Basel)

Prof. Dr. Sascha Fink (University of Magdeburg)

Dr. Ingmar Gorman (Psychedelic Education and Continuing Care Program)

Dr. Marc Wittmann (Institute for Frontier Areas in Psychology and Mental Health Freiburg)

Dr. Rosalind Watts (Imperial College London)

Vanja Palmers (Stiftung Felsentor)

Dr. Milan Scheidegger (University Hospital of Psychiatry Zurich)

Dr. Karin Preller (Yale University)

... and many more

### PROGRAM

The conference formats include keynote presentations and panel discussions as well as experiential and methodological workshops. We invite contributions and feedback by the conference participants and share this in round tables. There will be parallel tracks on the topics of research, therapy, philosophy and public health. The poster session will take place on September 6th.

### AWARDS AND SURPRISE PRESENTATIONS

The best two abstracts for oral presentations and the best poster will be awarded with conference awards. Selected oral presentations will be provided with the opportunity to speak in the “surprise talk” section of the conference.

### VENUE

Langenbeck-Virchow Haus  
Luisenstraße 58/59  
10117 Berlin (Mitte)

**We are looking forward to seeing you at INSIGHT 2019!**
